Dear Mr. Montgomery:

Re: NPDES General Permit No. ING040019
IDNR Permit No. S-0322
Peabody Midwest Mining- Somerville North Mine
11250 East County Road 450 South
Oakland City, Indiana
Gibson County

Dear Mr. Montgomery:

Our office has received your Notice of Intent (NOI) submittal in regards to the above-referenced facility. The submittal requested that in addition to renewal of coverage for the existing outfalls that coverage be granted for several new outfalls. Outfalls to be added are as follows: 021R (latitude 38°, 18', 45", longitude 87°, 23', 20"); 022R (latitude 38°, 18', 23", longitude 87°, 23', 14"); 023R (latitude 38°, 18', 03", longitude 87°, 23', 22"); and 080 (latitude 38°, 19', 07", longitude 87°, 23', 16"), all discharging to an unnamed tributary to the West Fork of Keg Creek; and 028R (latitude 38°, 18', 53", longitude 87°, 22', 48"); 029R (latitude 38°, 17', 58", longitude 87°, 22', 41"); 073R (latitude 38°, 18', 42", longitude 87°, 22', 08"); and 082 (latitude 38°, 18', 53", longitude 87°, 22', 49"), all discharging to an unnamed tributary to the East Fork of Keg Creek. The request has been processed in accordance with Section 402 and 405 of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, et seq.), and IDEM's permitting authority under IC 13-15. We are pleased to inform you that the renewal submittal is sufficient to comply with the NOI requirements in 327 IAC 15-7, Facilities Engaged in Mining of Coal, Coal Processing, and Reclamation Activities. The general permit rule requirements are contained in 327 IAC 15-1 through 15-4 and 15-7. In addition our office has determined that the addition of the new outfalls will not affect Peabody Midwest Mining, LLC's Farmersburg Mine's eligibility for coverage under the general permit rules outlined in 327 IAC 15-1 through 15-4 and 15-7, nor will the additional outfall points affect the site's ability to meet the reporting requirements. Therefore your petition to add the new outfalls has also been approved in accordance with Indiana Rules promulgated under 327 IAC 15-7. Coverage for the facility will now include all outfalls listed on the first table of Attachment 1 to this correspondence.

The NPDES general permit identification number assigned to this facility in the previous approval will be used again in this approval. This number will be used as an identification number and should be included on all correspondence submitted to IDEM in relation to this NPDES general permit. The NPDES general permit number which has been assigned to this facility is:

ING040019.

Due to the fact that 327 IAC 15-7 is a permit by rule, you will NOT be receiving an actual permit. However you will be responsible for following the general rule requirements contained in 327 IAC 15-1 through 15-4 and 15-7, which were sent to you with your original approval letter. Included in general permit rule 327 IAC 15-7 is the requirement for periodic reporting of several effluent parameters. This reporting will continue to be required using the forms that were sent to you previously. Should you need additional copies of this form it is also available on the internet at the following website:

<http://www.in.gov/idem/5104.htm>

327 IAC 15 is also available on the internet at the following website:

<http://www.in.gov/idem/4087.htm>

Additionally, you will soon be receiving a supply of the computer generated preprinted federal NPDES DMR forms. Both the state and federal forms need to be completed and submitted on a routine basis. If you do not receive the preprinted DMR forms in a timely manner, please call this office at 317/232-8670.

Renewal of coverage for the facility will include all outfalls listed on Attachment 1 to this correspondence. Since the expiration date of IDEM's previous approval of your facility to operate under 327 IAC 15-7 was March 31, 2010, coverage under the previous approval has been administratively extended. This renewal of coverage under 327 IAC 15-7 will therefore be effective on May 1, 2010, unless a person aggrieved or adversely affected by the acceptance appeals this decision. Coverage under this general permit rule expires on March 31, 2015. In order to receive authorization to discharge beyond the date of expiration, the permittee shall submit such information and forms as required by the Indiana Department of Environmental Management no later than ninety (90) days prior to the date of expiration.

Please note that any person who is adversely affected or aggrieved by this acceptance for coverage under the cited NPDES general permit rule may, within eighteen (18) days from the mailing date of this notification, appeal this acceptance by filing a written petition for administrative review with the Office of Environmental Adjudication, in accordance with IC 4-21.5-3-7. This petition constitutes a request for an adjudicatory hearing. The procedure for appeal is outlined in more detail on the attached page.

Mr. Rich Montgomery
Page 3

The Office of Environmental Adjudication will provide parties who request review of this acceptance for coverage with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

Please note that in accordance with 327 IAC 15-7-5(c), IDEM shall public notice its decision to accept your facility for coverage under the general permit rule.

If you have any questions regarding this letter, please contact Ms. Sheri L. Jordan of our staff at 317/ 232-8703.

Sincerely,
